Training Conditions

- Contract type** Part-time contract student-researcher
 ※ The contract is limited to the period required to obtain a degree and ends at the same time as the degree is obtained.
- Training start date** March 1, 2025
- Training time** 16 ~ 36hours/week
 ※ The training time should be determined at the time of contract in consultation with the person in charge of training. Subsidy varies according to the training time.
- Training contents** Participation in national research project/Experiment training, research activity guidance, thesis guidance, etc.

Subsidy for training

Division	Subsidy	Terms of Payment
Master's Course	₩1,925,600 /month	· Working 32hours/week · Payment must be deducted tax and 4 insurances
Doctoral Course	₩2,615,200 /month	· Wage increase scheduled for March 2025

※ The above training condition may be changed according to the KITECH's internal regulations

Qualifications

- A person who has obtained a bachelor's or master's degree as of the start date of training and is not affiliated with any other institution or industry.
- A person who can conduct research training until he or she obtains a degree in this research institute's master's and doctorate programs.(A person who has no problem signing a labor contract and subscribing to the four major insurances during the research training period.)
- A person who has no reason for disqualification pursuant to Article 33 of the State Public Officials Act

Admission Procedure

- 1st** Document screening and interview selection by KITECH (Recommendations for successful applicants)
- 2nd** Support and admission screening for master's and doctoral programs in academic-research cooperative research at partner universities

Pre-Selection Procedure

Application Period September 26(Thu), 2024 ~ October 14(Mon), 2024

Online Application Recruitment Homepage(<https://recruit.kitech.re.kr>)

- Selection Documents(Scan file upload): Certificates such as research/career record

Precautions

- Successful applicants for the first round of researchers must apply to the university according to the screening schedule of the desired university by attaching a recommendation form(issuing department : KITECH School Support Office). For details, refer to each graduate school recruitment notice or contact each university admissions office.
- You must check by yourself problems that may arise from concluding labor contracts and joining the 4 insurance schemes
- The application documents will not be returned and the final submission can not be modified. Disadvantages such as misprinting of documents or not submit the documents required are the responsibility of the parties as a rule
